

Welcome address to exhibitors and visitors to the Russian Week of High Technologies 2020

I would like to welcome all exhibitors and visitors to the Russian Week of High Technologies 2020.

In the five years of its existence, Russian Week of High Technologies has become a key event in the information and communication technology industry. The Week brings together the most significant events in information technology, telecommunications, navigation and telematics.

This large-scale project has been recognized by the professional community and is in the focus of attention of authorities and public organisations. It is organised by EXPOCENTRE with the support of the Russian Ministry of Digital Development, Communications and Mass Media, the Russian Ministry of Industry and Trade, the Federal Communications Agency, GLONASS Union, under the auspices of the Russian Chamber of Commerce and Industry. The Russian Week of High Technologies is a part of the Research-Technology-Innovations Expo project.

The Russian Week of High Technologies 2020 includes an extensive event programme and a large-scale exhibition exposition, which demonstrates world trends and the latest developments in the field of communication networks, data centers, Internet access, software, cloud technology, mobile solutions, artificial intelligence and other relevant spheres.

The central event of the exhibition programme is the 32nd International Exhibition for Information and Communication Technology Sviaz 2020, which has been held since 1975 and is the largest event in the field of information technologies in Russia, CIS and Eastern Europe.

The Russian Week of High Technologies 2020 also includes the 12th International Exhibition Navitech 2020 — the only professional exhibition in Russia that unites leading Russian and foreign developers and manufacturers of navigation equipment, services and software, and reflects the current trends in the global and Russian navigation market.

The Russian Week of High Technologies represents the largest platform in Russia for professional networking, solving business tasks, defining solutions and trends in information technology and telecommunications. Such important business events for the industry as Sviaz 2020: Conference on Digital Transformation of Telecom Industry, Forum on Russian Software: Effective Solutions, Enlarged meeting of the Federal Communications Agency on the results of the year, the 14th International Navigation Forum, IoT Tech Spring Conference and other will be held within the framework of the Russian Week of High Technologies 2020.

Let me wish all participants in the Russian Week of High Technologies 2020 successful work, achievement of their goals and good commercial results.

Sergey Bednov
Director General
EXPOCENTRE AO
